DETAILED ACTION

1. The abstract of the disclosure is objected to because it contains the term "means" (i.e. legal phraseology) throughout. Correction is required. See MPEP § 608.01(b).
2. The disclosure is objected to because of the following informalities: the tradenames "Velcro" and "Ziploc" referenced 6 places total on page 6 – lines 9 and 20 should each appear in all capital letters.

Appropriate correction is required.

3. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 1, "the upper frame portion" and "the upper end" lack clear antecedent basis and could be replaced with –an upper frame portion—and –an upper end— respectively for clarity. Additionally, lines 7-8 are somewhat awkward, and –a— could be inserted after "for" of line 7 to clarify the claim in this regard.

Re claim 4, lines 2-3 are somewhat confusing, and –said—could be inserted before "contiguous" to correct the claim in this regard as best understood.

Re claim 5, lines 2-3 are somewhat confusing, and –said—could be inserted before "contiguous" to correct the claim in this regard as best understood.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

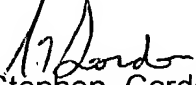

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-2, as best understood, are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Chang.
6. Claims 1-2, as best understood, are alternatively rejected under 35 U.S.C. 102(b) as being clearly anticipated by Japanese '216.
7. Claim 1, as best understood, is alternatively rejected under 35 U.S.C. 102(a) as being clearly anticipated by Japanese '227.
8. Claims 3-6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note at least Cano additionally teaches a door rain shield assembly.
